

BCC FIBERCELL PAPER ROLLS

Paper plugs are becoming very popular in India due to the very nature of the products. These are made using specially media using co-copeat, peat, perlite etc. The holding papers are made from special material to have sufficient strength and need to be biodegradable.

One of the problems faced by the plant producers is the non-availability of the paper on a regular basis. "Varsha Enterprises", have tied up with **M/s. BCC Fibercell** from **Sweden** (www.bccfibercell.com) who produce world class paper of different sizes and different material depending on easy degradable to long degradable types.

Segment: Vegetables, Fruits, Flowers, Herbes & leafy Greens.

Degradation time: 2-4months.

Environmentally Friendly: Yes

Certifications: FSC. Rainforest Alliance.

Paper Rolls are available in the following sizes:

- ⇒ Fibercell 20-70-1400 Prime Fast
- ⇒ Fibercell 30-98-1400 Prime Fast
- ⇒ Fibercell 40-130-1400 Prime Fast
- ⇒ Fibercell 50-164-1400 Prime Fast
