## FIBERCELL PRIME PAPER

The Prime Paper is suitable for crops with both a longer and shorter propagation period. The papers in the Prime family are used by numerous forest nurseries around the world, but is also suitable for other type of crops in other areas.

### FIBERCELL PRIME MEDIUM

We supply a range of paper which degrades naturally over time. In combination with our FiberCell Holders we provide the perfect solution to grow quality seedlings and cuttings.

The Prime Paper is suitable for crops with a longer propagation period. The papers in the Prime family are used by numerous forest nurseries around the world, but is also suitable for other type of crops in other areas.
